## About Me

A Web Developer with 1+ year of industry experience building websites and complex web applications. In addition, 2+ years of transportation logistics, and private aviation management. Programming let me realize my enthusiasm for problem-solving and design, and ultimately motivated me to pursue a Web Development career. Coming from logistics background sharpened my analytical and problem-solving skills, while transitioning through the industries made me an adaptable and quick learner who's always open to new challenges.

## Experience

### Independent Web Developer

Feb 2020 - Present

- Write consistent, efficient, and maintainable code in JavaScript
- Participate in the website life cycle, including planning, design, and development
- Collaborate with cross-functional teams to design, develop, and implement new features
- Ensure the performance, quality, and responsiveness of websites and web applications
- Assist in development and execution of user interface designs as per product requirements
- Design, develop and integrate Content Management Systems (CMS)
- Work with version control and issue management systems such as Git
- Document technical and business processes
- Participate in code reviews

## Education

### Web Development Certificate

Udemy

- Intensive Full-Stack Web Development course taught by the lead instructor at the App Brewery, London's leading in-person programming bootcamp
- Studies focused on JavaScript, HTML, CSS and most popular frameworks, libraries and tools. Built 20+ web apps and static pages

### Aviation Operations

Seneca College

- Graduated aviation-focused transportation logistics program with Honours
- Actively participated in a volunteering student mentoring and adaptation

## Skills
